H.

Chameleon's position regarding monetary forfeiture
for its rule violations

52. If the Commission elects to impose a monetary forfeiture to protect its processes and serve as a warning that rule violations, whatever the circumstances, will result in forfeiture, Chameleon is willing to pay a monetary assessment within its means.

I.

Termination of transmitting from the STA
site and resumption of transmitting
from the licensed Bay City site

53. The FCC Order was released August 26, 1996. An appeal and emergency motion for stay were filed in the Court of Appeals on August 28, 1996. The emergency motion for stay was denied on September 4, 1996. KFCC(AM) ceased transmitting from the STA site on September 5, 1996. The station resumed transmitting from the licensed Bay City site on September 7, 1996. The present licensee of the FM station located there, Gaujillo Investments, L.L.C., objects to Chameleon's presence but has informally permitted this to continue pending the ruling in this proceeding.

KIOX (AM)

BAY CITY, TX

Under authority of the Communications Act of 1934, as amended, the consent of the Federal Communications Commission is hereby granted to the transaction indicated above.

The Commission's consent to the above is based on the representations made by the applicants that the statements contained in, or made in connection with, the application are true and that the undertakings of the parties upon which this transaction is authorized will be carried out in good faith.

The actual consummation of voluntary transactions shall be completed within 60 days from the date hereof, and notice in letter form thereof shall promptly be furnished the Commission by the buyer showing the date the acts necessary to effect the transaction were completed. Upon furnishing the Commission with such written notice, this transaction will be considered completed for all purposes related to the above described station(s). FCC Form 323, Ownership Report, must be filed within 30 days after consummation, by the licensee/permittee or assignee.

ADDITIONAL REQUIREMENTS FOR ASSIGNMENTS ONLY:

Upon consummation the assignor must deliver the permit/license, including any modifications thereof to the assignee.

It is hereby directed that, upon consummation, a copy of this consent be posted with the station authorization(s) as required by the Commission's Rules and Regulations.

The assignee is not authorized to construct nor operate said station(s) unless and until notification of consummation in letter form has been forwarded to the Commission.

Re: Request for Special Temporary Authorization for KIOX AM at Bay City, Texas

Dear Sir/Madam:

Transmitted herewith please find an original and two copies of a request for Special Temporary Authorization (STA) to relocate the transmitter site of AM station KIOX (call sign change to KFCC applied for) at Bay City, Texas.

FCC form 155 along with the required filing fee of \$115.00 are also enclosed.

If there are any questions regarding this request, please direct them to the address and telephone numbers above.

Respectfully,

Don Werlinger
President

**Request To Relocate Transmitter Site of KIOX AM
At Bay City, Texas Under Special Temporary Authority**Engineering Statement

KIOX AM (1270 kHz, 1 kw, U, DA-N) currently operates from a licensed site near Bay City, Texas (N 29 - 38 - 10, W 95 - 32 - 22). Due to the loss of its currently licensed site, Chameleon Radio Corporation ("Chameleon") licensee of KIOX (Note: New Call Sign - KFCC applied for as of April 21, 1995), respectfully requests authority to operate from an alternate site utilizing Special Temporary Authorization (STA).

Proposed STA Site

KIOX proposes to utilize a site located 0.28 km (0.175 miles) east, southeast of intersection of Riceville Road and Cravens Road in rural southwest Harris County on a bearing of 100% True from that intersection. The geographic co-ordinates of the proposed site are: N 29 - 38 - 10, W 95 - 32 - 22. The site is outside the corporate limits of any city. (See Exhibit: E - 1)

Proposed Antenna System

KIOX proposes to utilize a 54.86 meter (180 ft.) tower (representing 83.65% in electrical height) supporting a folded unipole antenna system. The folded unipole will be bonded to the support tower at the 50 ohm point. Applicant proposes to utilize a copper wire mesh ground screen around the base of the support tower to a distance of 7.31 meters (24 feet). Bonded to the mesh screen will be 120 radials comprised of #12 soft drawn copper wire extending to a distance of 59.13 meters (194 feet), except radials will be truncated where they intersect property line. No radial shall be shorter than 45.72 meters (150 feet) in length (including mesh). (See Exhibits: E - 2, Page 1, and E - 2, Page 2)

Allocation

As herein proposed, KIOX seeks authority to operate with 1,000 watts non-directional daytime and 250 watts non-directional from the proposed STA site. The proposed STA operation will produce no prohibited overlap with the exception of overlap to KWHI (1280 kHz, 1 kw, ND-D) at Brenham, Texas.

With regard to overlap both produced and received from KWHI, field strength readings on the currently licensed non-directional operation of KIOX are submitted along radials bearing 10, 30, 310, 330, and 350 degrees true. Accurately plotted, the resulting contours show a wide area of overlap between the currently licensed KIOX site and KWHI. Utilizing Figure M-3 to determine contours, there will be .5 mV/m overlap between KIOX and KWHI from the proposed STA site; however, the overlap created from the proposed STA site will reduce overlap to KWHI by more than 35% as compared to the overlap produced by the currently licensed KIOX site. (See Exhibit: E-5, Pages: 1 thru 4)

(3)

Readings To Be Taken

Chameleon intends to make the proposed STA site its permanent transmitter location. An application seeking to make the proposed STA site the permanently licensed site is currently being prepared; however, field strength readings from the proposed STA site are necessary to complete that form 301 application; therefore, the application cannot be presented prior to grant of the instant STA request. Once the STA operation is on the air, Chameleon will immediately commence necessary field strength readings along pertinent radials and the formal form 301 request to make the STA site the station's permanent transmitter location.

FAA Authority

Although the proposed 180 foot tower is below minimums necessary to seek FAA authority to construct, Chameleon has presented an FAA form 7460-1 to the FAA Southwest Regional office in Ft. Worth, Texas on April 20, 1995. FAA approval of the form is expected prior to May 1, 1995. (See Exhibit: E - 6).

If any questions occur regarding the instant request, please contact:

Don Werlinger, President
Chameleon Radio Corporation
10865 Rockley Road
Houston, Texas 77099

Comments: John,

Here is an amended Figure: E-1. The only changes we propose to make to the existing 180' tower is the installation of insulators and the folded unipole antenna. The tower in our original proposal will be the center tower of what will be a three tower array. Again, we will have a form 301 to you *within* 30 days of placing the STA on the air. All we need is time to take some readings off the STA site in order to properly design the pattern. I am also sending you a copy of the check we sent with the original STA on form 155. If any questions, please don't hesitate to call me.

Thank you,

Don Werlinger
